Special provisions relating to goods imported under customs duty facility: (1) If vehicles, machinery, equipment, and goods imported by a person or body entitled to diplomatic privilege, under diplomatic or duty facility, are sold or gifted after the expiry of five years from the date of import, sixty percent of the customs duty leviable under Schedule-3 shall be exempted. In the case of such vehicles, machinery, equipment, and goods imported under diplomatic facility or duty facility, when granting such facility to a person, it shall be granted only once during the period such person holds office in Nepal.

(2) In relation to goods imported in the name of projects or contractors for the operation of projects within Nepal, the following shall apply:

(a) In relation to vehicles and means of transport, construction machinery and equipment, etc.:

(aa) The Ministry may allow temporary import by taking a bank guarantee for the amount of duty leviable on

construction machinery and equipment imported in the name of a project operated by the government or private sector, or the concerned contractor, subject to the agreement with the Government of Nepal or a decision of the Government of Nepal, and on vehicles and means of transport imported in the name of a government project or a foreign contractor associated with it, or a joint venture of a foreign contractor and a Nepali contractor.

For such temporary import with a bank guarantee, a master list containing the details of the goods essential for the project must be approved and recommended by a gazetted officer of the special class of the concerned body or the Chief Executive Officer of the Investment Board Nepal. Provided, however, that in the case of a project operated under foreign aid, subject to the conditions mentioned in the agreement, based on the recommendation of the Secretary of the concerned ministry or the development partner, the Ministry may permit the temporary import of construction machinery, equipment, vehicles and means of transport required for the project, on a cost basis, with the condition that they must be compulsorily taken back after the completion of the project. Goods imported in this manner shall not be sold, donated, or transferred to any person in Nepal.

(bb) When importing vehicles, means of transport, and construction machinery and equipment under sub-clause (aa), the declaration shall be cleared specifying the period of stay within Nepal. If, due to the non-completion of the project within the specified period, it becomes necessary to keep the goods within Nepal for a longer period than mentioned in the declaration, the concerned body shall obtain approval and inform the Department of the extension of the project period. On that basis, the Department shall inform the concerned customs office and the concerned body.

The importer shall inform the concerned customs office of the details of the vehicle or means of transport so registered, along with a copy of the registration certificate, within thirty-five days from the date of registration.

(ii) Except where the Government of Nepal has granted an extension of time, the goods under this clause shall be taken back within three months from the date of completion of the project or from the date of cancellation of the contract (contract agreement). Explanation: For the purpose of this sub-section, "the date of completion of the project" shall mean the defect liability period or maintenance period as mentioned in the agreement.

(u) Except for the construction equipment, machinery, vehicles, and means of transport temporarily imported on a cost basis by a project operated under foreign aid as per the proviso clause of sub-clause (aa), if the goods are not taken back as per sub-clause (ii), and are themselves used, or if they are gifted or sold to any person, the duty leviable under the prevailing law shall be paid within the specified period.

Vehicles and means of transport, construction machinery and equipment not taken back within the specified period or for which duty is not paid shall be confiscated, and an amount equivalent to the duty leviable from the bank guarantee kept at the time of temporary import shall be credited as revenue.

(oo) The same contractor shall not be allowed to import similar vehicles, machinery, equipment, and goods for another project until the goods imported in the name of one project are taken back or the duty on such goods is paid.

(b) In relation to consumable goods for the project:

When recommending to the Ministry for duty exemption on goods to be consumed in a project operated under foreign loan or assistance and approved by the Investment Board Nepal, the master list containing details of such goods, including the following subjects, must be approved and recommended by a gazetted officer of the special class of the concerned body or the Chief Executive Officer of the Investment Board Nepal:

(ee) If the approved master list is amended, the basis and reason for the amendment must be stated.

(c) The master list mentioned in clauses (a) and (b) must clearly indicate the name of the goods, unit, unit price, total price (CIF, CIP, FOB, Ex-Works, or other), currency, sub-heading of the goods classification, country of origin, name of the project and the importer, and the date of project completion, etc.

(d) If the unit price of goods included in the approved master list mentioned in clauses (a) and (b) is up to twenty-five percent less than that mentioned in the master list, such price shall be recognized. If the unit price of goods decreases by more than twenty-five percent, the master list shall be amended to adjust such price.

(3) Goods imported under facility as per sub-section (2) shall be used only for the project for which they were imported.

Except where approved by the Government of Nepal, if they are found to have been used elsewhere than in the specified project, in the case of consumable goods, the duty leviable on such goods and an equivalent penalty shall be imposed. In the case of non-consumable goods including vehicles, machinery and equipment, such goods shall be confiscated, and if a bank guarantee was kept for the duty, an amount equivalent to the leviable duty from such bank guarantee shall be credited as revenue. (4) When entering into any agreement relating to a project to be operated under foreign aid after the 1st of Shrawan 2080 (B.S.), no agreement shall be made granting duty exemption on the import of goods such as cement falling under Chapter 25, iron rods, iron pipes falling under Chapter 73, plastic pipes falling under Chapter 39, galvanized sheets falling under Chapter 72, and electric cables falling under heading 85.44, to be consumed in such project.
